Summer's a sensation in Toronto! It's peak season for dozens of major attractions. There are so many sights to see and so many ways to see them. From the water, skimming around the harbour or cruising through quiet island lagoons – from the ground, on a conducted tour in a comfortable, air-conditioned bus or a vintage trolley car – or, from the heights of a spacious observation deck.

Special events include a birthday bash for Canada and an outdoor art exhibition in the heart of the city. Our famed national exhibition makes its annual appearance late in August followed by a glittering international film festival. There are festivals and fairs galore – take your pick and participate.

Toronto gives you value and variety for your entertainment dollar. See international performers in concert and theatrical productions. The kids will be captivated too, with everything from puppet and magic shows to camping and sailing.

Be sure to bring your camera – you'll want to capture every moment to take back home.

HAPPY ANNIVERSARY TORONTO!

March 6, 1984 marks the 150th anniversary of the incorporation of the City of Toronto. To commemorate the event, a unique, ongoing eight-month city-wide celebration is being planned.

Like all birthday parties, Toronto's Sesquicentennial year will be a time for reflection, friendship and festivities, and some of the special events planned include The Toronto International Festival – a gathering of performing artists from around the world; international sporting and recreational events; waterfront activities; neighbourhood and community celebrations; parades; lectures; films; displays; and daily birthday festivities at Nathan Phillips Square. In all, an action-packed year with something for everyone.

PACK YOUR CAMERA

Anyone who's been to Toronto knows why it's one of the most photogenic cities anywhere. That special quality comes from a combination of features: our lakefront location, the striking architecture, our desire to keep early landmarks alive, the number of parks, our major attractions and our many-cultured population. All this means you'll have a great time snapping scenes across the city. Try the zoo, where the animals roam free but you can get right up close. Or the waterfront, where the sailboats are sheltered by a natural archipelago. We've got open air markets for antiques and fresh international foods, and colourful ethnic areas. Watch the play of sunlight on a mirrored high rise tower, or the way it reflects its ornate Victorian neighbour. There are boardwalks, handsome streetscapes, and beautiful people in cafés. Exuberant festivals and parades appear through the year. Capture the crowds skating 'round city hall's frozen fountain, or celebrating at an outdoor concert. Not only is Toronto full of picturesque life: it's also easy to make your way around on foot or by transit. So bring your camera and catch the sights of Toronto to take back home.
